

340 FLYING TRAINING GROUP

Flying Operations Requirement for Air Force Physical

OPR: 340 FTG/DO
Date: 13 March 2003

In accordance with AFRCI 36-2001, 1 Oct 99, paragraph 4.7.4, ***“flying physicals require HQ AFRC/SG certification (stamp marked) before accession to the AFR. Applicants applying for flying positions must be administered a flight physical examination.”*** In addition the note for Table 4.14 states, ***“flying class physicals may be accomplished at any military medical facility. However, they must be reviewed and countersigned by an Air Force (or ARC) flight surgeon prior to further processing.”*** In light of these requirements and the difficulties we have had with physicals from other services, as of this date our policy will require that all applicants will have an Air Force physical, with appropriate AFRC/SG coordination, in their application package.
