A background image showing an Air Force Reserve Airmen in a white t-shirt and blue harness working on the fuselage of an aircraft. The Airmen is focused on a task, possibly inspecting or repairing a component. The aircraft's structure is dark, and the background features a large American flag with stars and stripes.

LOW LIFE CYCLE COST

Significantly lower life cycle costs than Active Component counter-parts

RETAIN AF INVESTMENT

EXPERIENCE

Increased experience to the Total Force via Continuity of service from Active Component Airmen and transferrable skills and training from employment in the civilian sector

CONNECTION TO THE COMMUNITY

Reserve Airmen are often more involved and connected to the local community as a benefit of living and working off-base, moving less frequently, and being at one duty-location longer
