# AIR FORCE RESERVE STRENGTHS

- **Low Life Cycle Cost** - Significantly lower life cycle costs than Active Component counter-parts
- **Retain AF Investment** - Maximizes prior service accessions and captures costly initial training investments
- **Experience** - Increased experience to the Total Force via Continuity of service from Active Component Airmen and transferrable skills and training from employment in the civilian sector.
- **Connection to the Community** - Reserve Airmen are often more involved and connected to the local community as a benefit of living and working off-base, moving less frequently, and being at one duty-location longer
